

# InHand Modem by GlobalConnect®

Bring reliable, affordable wireless connectivity to your markets with the InHand IR302 Cellular Modem.

Enjoy the best data pricing in the industry! With no hardware costs, a minimum one-year commitment, and zero down, you will **only pay for what you use!**

The IR302 Supports both high-speed LTE CAT 4 and low-speed LTE CAT 1 CAT M1/NB IoT networks, has dual ethernet ports, WAN/LAN, multiple VPN protocols, and built-in link redundancy.

The IR302 comes in two configurations:

- Single SIM model (can be upgraded to multi-carrier at any time)
- Dual-SIM failover option to ensure uninterrupted communications.

All major US Carriers are supported.

Available exclusively at <a href="http://globalconnectmarketplace.com">globalconnectmarketplace.com</a>
