LYNK Telemeter – Service Quick Reference Guide

Quick Service DEX

Tap quickly on the screen opposite the Language buttons 5 times to do a quick Service DEX. No pin is required. For full screens, tap at the bottom. For overlay models, tap at the top.

Service Menu

1. Tap quickly on the Language button 5 times to show the Service Menu
2. Tap in the PIN
3. Service Menu Options are:
    a. Reboot – will reboot the terminal and check for updates immediately
    b. **Service DEX – For sending a restock report/dex file back to your VMS.** Watch video - https://youtu.be/h-ewbs5xDic
    c. All Options – additional advanced options (like, self-check screens for communication, DEX Check, and move telemeter)
